**Delivery:** Charge for maintaining the system through which Con Edison delivers electricity to you.

**Electricity Supply:** Charge for the electricity supplied to you.

**Energy Delivery:** Additional Delivery Charges and Adjustments. For more information, visit [conEd.com/rates](http://conEd.com/rates).

**Merchant Function Charge:** A charge that recovers costs associated with procuring electricity, procuring and storing natural gas, conducting credit and collections activities, and managing uncollectible accounts.

**New Read:** Monthly meter readings are no longer used for billing purposes. Instead, we use the data provided by your smart meter(s), which improve accuracy by recording your energy use in 15-minute intervals. Your New Read is provided for illustrative purposes only.

**Prior Read:** Your prior meter reading was calculated when your last bill was issued.

**Reading Difference:** The reading difference is the result of subtracting your prior meter reading from your new meter reading. Please note: the New Read and Prior Read values shown on your bill have been rounded and/or truncated. Calculating the Read Diff yourself may result in a different value than the one shown here.

**Reading Type:** You will see the word "Estimated" here if your smart meter was unable to communicate your energy use during the billing period. Otherwise, your reading type will be "Actual".

**Sales tax:** Tax collected on behalf of New York State and/or your locality.

**System Benefits Charge:** A charge that recovers costs associated with energy-efficiency and renewable-energy programs implemented by the Company and the New York State Energy Research and Development Authority (NYSERDA).

**Total Usage (kWh):** Your total usage is the sum of the 15-minute interval data recorded by your smart meter(s) during the billing period. This is used to calculate the energy-delivery and energy-supply charges on your bill.
