Credit scores

FICO® Score 8

Your score is above the average of U.S. consumers and demonstrates to lenders that you are a very dependable borrower.

What's helping

✓ No missed payments

- You have no missed payments on your credit accounts.
- Number of your accounts with a missed payment or derogatory indicator: 0 accounts
- About 98% of FICO High Achievers have no missed payments at all. But of those who do, the missed payment happened nearly 4 years ago, on average.
- The FICO® Score evaluates if there are any missed payments being reported. Staying current and paying bills on time demonstrate lower credit risk.

✓ Recent credit card usage

- You've shown recent use of credit cards and/or bank-issued open-ended accounts.
- FICO® Scores evaluate the mix of credit cards, installment loans and mortgages. People who demonstrate recent and responsible use of credit cards and/or bank-issued open-ended accounts are generally considered less risky to lenders.

✓ Not seeking credit

- You're not actively looking for credit.
- Your applications for credit in the past year: 0 inquiries
- About 70% of FICO High Achievers did not apply for credit in the past year.
- Each time a person applies for credit, a credit inquiry is usually added to your credit report. Your credit report shows relatively few or no recent credit inquiries, which indicates that you are not actively looking for credit. People who are actively seeking credit pose more of a risk to lenders than those who are not.

What's hurting

— Short account history

- You have a short credit history.
- Your oldest account was opened: 3 Years, 2 Months ago
- FICO High Achievers opened their oldest account 25 years ago, on average.
- Average age of your accounts: 2 Years, 7 Months
- Most FICO High Achievers have an average age of accounts of 9 years or more.
- People with longer credit histories who infrequently open new accounts generally pose less risk to lenders. In your case, the age of your oldest account and/or the average age of your accounts is relatively low.

— High credit usage

- You've made heavy use of your available revolving credit.
- Ratio of your revolving balances to your credit limits: 27%
- For FICO High Achievers, the average ratio of the revolving account balances to credit limits is less than 7%.

- The FICO® Score evaluates balances in relation to available credit on revolving accounts. The extent of a person's credit usage is one of the most important factors considered by a FICO® Score. People who keep their ratio of balances to credit limits lower are generally considered less risky to lenders than those with higher ratios. Note, consolidating or moving debt from one account to another will usually not change the total amount owed.

**Disclaimer****About your FICO® Score 8 or other FICO® Scores**

Your FICO® Score 8 powered by Experian data is formulated using the information in your credit file at the time it is requested. Many but not all lenders use FICO® Score 8. In addition to the FICO® Score 8, we may offer and provide other base or industry-specific FICO® Scores (such as FICO® Auto Scores and FICO® Bankcard Scores). The other FICO® Scores made available are calculated from versions of the base and industry-specific FICO® Score models.

Base FICO® Scores (including the FICO® Score 8) range from 300 to 850. Industry-specific FICO® Scores range from 250-900. Higher scores represent a greater likelihood that you'll pay back your debts so you are viewed as being a lower credit risk to lenders. A lower FICO® Score indicates to lenders that you may be a higher credit risk. There are many scoring models used in the marketplace. The type of score used, and its associated risk levels, may vary from lender to lender. But regardless of what scoring model is used, they all have one purpose: to summarize your creditworthiness. Keep in mind that your score is just one factor used in the application process. Other factors, such as your annual salary and length of employment, may also be considered by lenders when you apply for a loan.

What this means to you:

Credit scoring can help you understand your overall credit rating and help companies better understand how to serve you. Overall benefits of credit scoring have included faster credit approvals, reduction in human error and bias, consistency, and better terms and rates for American consumers through reduced costs and losses for lenders. Your lender or insurer may use a different FICO® Score than FICO® Score 8 or other base or industry-specific FICO® Scores provided by us, or different scoring models to determine how you score.
