Residential payment agreement rules:

This agreement must be fair and must be based on your ability to pay. If you are unable to pay under the terms of this agreement, you should not sign it and call us at the phone number on the first page of this agreement.

If you can demonstrate financial need, alternative terms will be arranged. Depending on your financial circumstances, a down payment may not be required, and installments may be as low as \$10 per month.

If you are a recipient of public assistance or supplemental security income, assistance to pay your utility bill may be available from your local Department of Social Services.

If your financial circumstances change during the course of this agreement for reasons beyond your control, the terms of this agreement may be adjusted to reflect such changes. If a change is needed, call us at the phone number on the first page of this agreement.

Late payment charges:

A late payment charge of 1.5% per month (18% per year) will be billed for any charges that go unpaid past the invoice due date.

What happens if payments are not made:

If we do not receive payments of your installments and current bills on time, you may be required to pay the total amount due on your account. NYSEG will send you a termination notice allowing you 15 days before service is turned off. If you are unable to reach an agreement with our representative, you may ask to speak with a supervisor.

Public Service Commission Helpline:

If further assistance is needed, you may visit the New York State Public Service Commission website at www.dps.ny.gov/complaints or call 1.800.342.3377 8:30 a.m. to 4:00 p.m. on business days.

How Budget Billing works:

We estimate your total annual usage based on your previous year's usage of electricity and / or natural gas. We divide that estimate by 12 to get your monthly Budget Billing amount. We will review your account every three months to make sure your energy use is in line with your monthly payments. If necessary, we will adjust your monthly payment so you have neither a large credit nor a large amount due (debt) when your account is balanced in the 12th month.

After the 12th budget is billed, we will calculate what your monthly payment amount will be for the next year. Your Budget Billing will automatically be renewed at the end of the 12 months.

Your monthly bill will indicate the total amount billed, the cost of energy used and the account balance. At times, you may see a credit on your Budget Bill because your Budget Billing amounts are greater than your actual energy use. At other times you may see a debit because your Budget Bill amounts are less than your actual energy use. We do not charge interest if you have a debit, nor do we pay interest if you have a credit. Sales tax (state and local) is applied on the amount of actual energy used during the billing period, not on the Budget Billing amount.

If you have any questions about Budget Billing, please call us at 1.800.572.1111.
