## Your gas charges

These charges are for the gas you used (supply) and getting that gas to you (delivery). Rates are based on a 30 day period. When your billing period is more or less than 30 days, we prorate your bill accordingly.

### Gas you used during this 34 day billing period from Nov 03, 2015 to Dec 07, 2015

Rate: GS2 General Non-residential

Gas meters measure the volume of natural gas. Gas usage is billed in therms, the heat content of gas. The meter multiplier is the factor by which the meter reading difference is multiplied to determine your usage in ccf (hundred cubic feet). The therm conversion factor converts ccf into therms. Your total gas use is the sum of the usage from your various meters which follow.
