They have a Siedle intercom handset for the above apartment which needs to be programmed, installed and tested.

Arrived on site and installed used unit provided on site.

We were able to connect it to the system and test however the video portion would not come up on the unit.

Advised Claude and he authorized additional trouble shooting time.

We tried connecting it locally to the controller but still no image.

All other functions working properly as advised and trained tenant on proper use of system

On site 3 hrs.
