NOTES

We are stuck with the position of the sink because of the plumbing.

We are stuck with the length of the sinkside counter because of the floor and the dinette radiator.

Is there room to connect the stove exhaust to the existing duct under the counter in the island?

The sink cabinet below is open. It allows for a garbage disposal.

Because of the length of the island, the stove needs to be off center about 15" towards the patio door because the vent in the floor is 38" from the patio side end of the counter.

The wall cabinets are 15" deep. The existing wall cabinets are 12" deep. Soffets need to be padded.

Sides of the cabinets are finished but the backs are not. Need a panel on the peninsula back.

Need a panel on the side of the fridge.
