

BRAWER BROS., INC.

July 27, 2012

To Whom It May Concern:

The business relationship between the my companies and Claude Simon dates back over 30 years (to the 1980's). My companies and I have had the pleasure of doing business with Claude, first as president of Veratex, Inc., and later as president of VRTX, Inc.

We currently have a credit line for the Veratex/VRTX companies of \$300,000 but would be willing to increase based upon our long term relationship and the credibility of Mr. Simon. On several occasions over the years, the outstanding credit due from Veratex/VRTX has approached this limit and Mr. Simon has always made good on his payables to us.

Because of Claude's integrity, I have never had any concern over extending credit to Claude or Claude's companies. Veratex and VRTX are among a dozen or so remaining companies in the USA warp knit business today which is a testament to his ingenuity and business acumen.

If you have require any further information or wish to discuss anything with me regarding Claude Simon, please do not hesitate to call me at 973-238-1800 x254.

Sincerely,

Shartel (Skip) Smith

CEO / Owner, Brawer Bros., Inc.
