Mr. Claude Simon
71 Tonjes Road
Callicoon, NY 12723

Dear Mr. Simon,

Thank you for your interest in our line of quality steel buildings. The staff of American Outback Buildings takes great care in designing your building according to your exact specifications. Furthermore, we want to accomplish this at a price for you that our competitors can only dream of offering. This is possible because of the large group buying power our company has with a national steel manufacturer.

Enclosed with this letter you will find several pages. One page shows a layout of the specific building dimensions and options you requested. As you view this, you may think that the items are not exactly where you want them located. This is not a problem. It was only necessary that we include them in the display in order to get them included in the bill of materials. They can be ultimately placed in other suitable locations. There are actually thousands of building sizes and also many other options to choose from if you have a specific requirement.

Another page lists the exact building specifications on one side and the Terms and Conditions of the contract on the other side. Please bear in mind that the colors listed on this page, as well as the display page, can be easily altered according to your preference and our availability. This could be explained over the telephone.

After reviewing these documents, we are prepared to answer any questions you may have in finalizing an order. Please give us a call. Typically an order takes approximately one month to six weeks from the time we receive the signed contract and deposit until the time it is delivered to your building site. That includes wet-stamped custom-engineered drawings for your building and the concrete plans for your use in obtaining permits.

Thank you again for giving us the opportunity to meet your building needs. We encourage you to visit us at our website: www.AmericanOutbackBuildings.com to learn more about our products.

Sincerely yours,

A handwritten signature in blue ink that reads "Sandy Larsen". The script is cursive and fluid.

Sandy Larsen
American Outback Buildings

P.S. Please note that the quoted price also includes delivery and custom engineering for both the building and the concrete. Our toll free # is 877-723-2897.
