Important

Caller ID Blocking and Automatic Number Identification

Caller ID Blocking - You can prevent the display of your telephone number on a Caller ID phone with these options:

- Per-Call Blocking - To block your number on a per call basis, press *67 before making a call (1167 on a rotary phone). There is no charge for this using this option.
- Line Blocking - You may order per line blocking in states where it's available to block your number for all outgoing calls. You can press *82 before a call to allow your number to display on that call (1182 on a rotary phone).

Automatic Number Identification - When you call 911, or dial 800, 888, 877, 855, 866 and other toll free numbers, the party you call can identify your telephone number using a network technology called Automatic Number Identification (ANI). Caller ID blocking may not prevent the people who answer such calls from seeing your phone number and name. FCC rules do prevent parties that are assigned toll free numbers from reusing or selling the telephone numbers identified through ANI without the subscriber's consent.

Notice Regarding Disclosure of Billing Name and Address to Third Parties

If you accept any collect or bill-to-third party calls to your local telephone number, your billing name and address (BNA) may be disclosed to other telecommunications providers and their authorized billing and collection agents as required under the policies and rules of the Federal Communications Commission. You have the right to request that your BNA not be disclosed to third parties by contacting Verizon at 1.800.Verizon (1.800.837.4966) to request a block. If you have an unlisted or non-published number, you must still request a block to prevent disclosure of your BNA. This also means you've given your consent to disclosure beginning 30 days after the first time you are advised of the information in this notice.

FUSF Fee Changes July 1, 2017

Your Federal Universal Service Fund (FUSF) fee may change on July 1, 2017. Authorized and reviewed quarterly by the FCC, the FUSF funds programs to keep local telephone rates affordable for all customers and provides discounts to schools, libraries, rural health care providers, and low-income families.

Surcharges

Surcharges include:

- a Federal Subscriber Line and Access Recovery Charge applicable to state-to-state and international services that helps pay for the costs of providing and maintaining the local phone network;
- a Federal Universal Service Charge applicable to state-to-state and international services to recover fees imposed on us by the government to support universal service;
- a Carrier Cost Recovery Charge applicable to long distance customers that helps defray our costs for terminating calls on other networks, fees paid to support government programs such as Telecommunications Relay Service and local number portability, and other Federal Communications Commission-assessed charges;
- a Long Distance Administrative Charge applicable to long distance customers to help defray account servicing costs for state-to-state and international calling;
- a Federal Regulatory Fee applicable to recover the annual per video subscriber fee payment made to the FCC; and,

- a FDV Administrative Charge applicable per Fios Digital Voice line to help defray account-servicing costs associated with providing voice services.

Please note that the surcharges are charges, not taxes. These charges, and what is included in these charges, are subject to change from time to time. For additional information regarding the charges on your Verizon bill, please visit verizon.com or call the number listed on your bill.
