SIMON -- DICHNER GENEALOGY

Jan 2006

Dear Cousin

SAM

This is an updated copy for you of our family's genealogy. I have put this together from many sources, some accurate, and some may not be so accurate.

Much research and hard work has been done before this. Lewis Meixler, husband of Sylvia Dichner Weiss' daughter Debbie compiled a very detailed family tree several years ago. I have drawn extensively on his efforts. Sam Bruno, son of Sylvia Simon Bruno, researched and compiled many source documents over the years. His help has been invaluable.

My mother, Jeanette Simon Morrow, has saved a treasure trove of family paper and photos over the years. Helping her clean out her storeroom / garage has been a major stimulus to me to compile all of this information in a single place. Several conversations with Dichner-side relatives (Sylvia Weiss, Manny Dichner, Steve Spierer, Diane Spierer Stone, Fay Dichner, Lennie Dichner and Rae Dimow Epstein) have helped to fill in many gaps.

I need your help in checking, adding to and editing this family document. Please review any / all sections that you have information about, write in any changes or additions and send either a page copy or an e-mail back to me. Please double-check all dates, names and places.

I especially need help with the "BIO" sections. I have written what I "know", but please create your own "BIO" in any way you would like it to read. Include your address and phone number / E-mail. Any representative family photos, especially old ones (Jake, Anna, Alex, etc.,) would be most appreciated. Also if anyone has any experience or interest in genealogy, I welcome your help and companionship.

Please be assured that all information will be kept private. I will not put any of this out "On-Line !!!" I will be happy to E-mail the document or pictures to you, if you like. Just let me know !!

Enjoy our family and its history. Please contact me !! Much love and good wishes for the New Year.

Cousin Chris "Todd"
