---

Yes sir, I can do the analysis, send it on.

We got hit pretty hard with Matthew. Trees down everywhere. A couple in my back yard, fortunately, fell into the woods. There are still 20 roads still not open.

Curt

Hi Curt-

I hope you're doing well. It has been awhile. Did you get hit by the hurricane?

I'd like to send you a sample for analysis which I'm told is 21 gauge which I've never heard of. Customer says 20gg is okay.

Measured width is 56.5"

Can you do it for us?

Thanks,  
Claude
