Amount Paid	\$

Messages

The NYSEG price for providing electricity supply during this billing period was \$0.05731159/kwh which includes a Merchant Function Charge of \$0.0035/kwh. If you decide to shop for electricity supply, you can compare this information with prices offered by energy services companies (ESCOs). You could achieve some tax savings if you switch to an ESCO. Additionally, if the ESCO includes its charges on your NYSEG bill, you would not have to pay NYSEG's bill issuance charge. If you buy electricity from an ESCO, NYSEG will continue to deliver the electricity to you and you will continue to pay NYSEG for delivery, transition and basic service charges.

On September 1, the third of three annual electricity and natural gas delivery rate increases under the terms of the 40-month rate plan approved by the Public Service Commission in September 2010 goes into effect. Customers may see some charges prorated on a September or October bill to take into account energy delivered before and after the new electricity and natural gas delivery rates went into effect. Additional information is available in the special bill insert included with this bill.

Project SHARE is here to help you! Since 1982, local American Red Cross chapters, NYSEG, along with other agencies across the state, have helped Project SHARE distribute \$6.9 million to 33,000 customers. For grant information, visit nyseg.com, click on "In the Community" and then on "Project SHARE." Or call your local chapter of the American Red Cross.

Even out your energy costs with our Budget Billing service. You can now enroll, increase or cancel your Budget Billing installments at nyseg.com. Click on "Your Account" and then on "Budget Billing."

Terms and Definitions

Delivery charge: what you pay NYSEG to transport energy to your home or business.

Supply charge: what you pay for the energy purchased for you by NYSEG or a supplier other than NYSEG.

Payment & billing services charge: the cost to produce and send you (electronically or paper) a bill and process payments. Customers who use an energy supplier (also known as an energy services company or ESCO) other than NYSEG will not be assessed this charge by NYSEG if their ESCO's supply charges appear on their NYSEG bill, however, their energy supplier may charge a similar fee.

Competitive meter charge, Competitive meter service charge, and Competitive meter data service: apply to customers billed under service classes 2, 3, and 7 whose metering services are provided by NYSEG. These meter services charges, previously included in the customer charge, are now broken out in the electricity section of the bill. Customers with a demand of 50 kilowatts or more for two consecutive months who use a meter service provider and a meter data service provider other than NYSEG are not assessed these charges.

Basic service charge: includes a portion of the cost of the meter, meter reading, billing and part of the cost for delivery service. Appears on your bill whether or not you use any electricity or natural gas during the billing period.

Kilowatt-hours (kwh): measure of electricity use.

Residential consumer discount: monthly payment received from the New York Power Authority (NYPA) to be used for the benefit of residential customers. It is included in the Transition Charge.

ccf (hundreds of cubic feet): measure of volume of natural gas used. You are charged based on therms, the energy (heat) content of natural gas.

Merchant function charge: reflects the administrative costs of obtaining electricity and natural gas supply. Customers with a supplier other than NYSEG are not charged by NYSEG for this service.

New York State Assessment: As required by state law, effective July 1, 2009, utilities must collect a special state assessment from all customers for the state's general fund. Utilities are required to collect this assessment through March 2014.

Renewable Portfolio Standard (RPS) charge: a state-mandated charge that funds renewable energy projects to achieve targets established by the Public Service Commission.

System Benefits Charge (SBC): a state-mandated charge for all electricity and natural gas customers. The electricity SBC is used to fund energy efficiency programs to meet state energy use reduction targets, provide assistance for low-income customers and conduct energy research. The natural gas SBC is used to fund initiatives focused on reducing natural gas use in the state as part of the Energy Efficiency Portfolio Standard. These charges were required by the Public Service Commission.

Revenue Decoupling Mechanism: a charge or credit on your bill that reflects the difference between forecast and actual delivery service revenues by service classification to encourage the promotion of energy efficiency and renewable technologies.

Weather adjustment: moderates natural gas bills during any extreme weather between October 1 and May 31. If temperatures during the billing period are colder than normal, customers typically receive a credit; if temperatures are warmer than normal, customers receive a charge.

Meter Mult (Meter Multiplier): when the actual amount of energy you use is more than can be registered on the meter, the meter displays a fraction of your actual use. A multiplier is then applied to determine your actual energy use. When a multiplier is used, it will be shown in the "Meter Mult" box under the "NYSEG Detailed Account Activity" section of your bill.

Transition charge/surcharge: reflects the costs of making the electricity and/or natural gas industry more competitive; includes associated credits and/or charges.

Prorated bills: calculated by determining your average daily energy cost and multiplying it by the number of days in your billing period. Prorated bills are used only when your billing period is shorter or longer than usual.

Pay your bill by mail, at nyseg.com or at any of NYSEG's authorized pay agents. If you pay in person, please bring your entire bill.

Payment is due when you receive your bill. Your payment must be postmarked by the "Late Fee After" date shown on page 1. If paying in person, payment must be made by the "Late Fee After" date. Payments received after the "Late Fee After" date will be subject to a 1.5% late payment charge per month.
