Q

**Messages For You**

SI This is an estimated bill. If the next actual demand reading is higher than this estimate, we may revise the estimate to the higher demand. You may avoid being billed at a higher demand level since your last actual meter reading if you arrange for and keep a meter reading appointment before the next scheduled meter reading date of March 12, 2026. Please call the telephone number on your bill for an appointment.

SI This bill shows that your average daily usage has exceeded 100 kilowatt hours (kWh) during this billing period. If your average daily usage exceeds 100 kWh on your next bill, a demand meter may be installed and future bills will include information in the DEMAND REGISTRATION portion

of your bill. The recorded demand will show the highest number of kilowatts of electricity used in any one-half hour during the billing period.

SI YOUR DOLLAR FOR ENERGYSHARE CAN MAKE A DIFFERENCE

EnergyShare helps eligible residential customers struggling to pay their bills with a grant of up to \$300. Pay the total amount of this bill and exactly \$1.00 more, and that dollar will go towards the EnergyShare fund. Con Edison will match each contribution.

Understanding your bill

Basic Service Charge: A charge for basic system infrastructure and customer-related services, including customer accounting, and metering services. A billing and payment processing charge of \$1.44, which may be avoided by switching to an energy services company (ESCO), is also included.

Delivery: Charge for maintaining the system through which Con Edison delivers electricity to you.

Electricity Supply: Charge for the electricity supplied to you.

Energy Delivery: Additional Delivery Charges and Adjustments. For more information, visit conEd.com/rates.

GRT & other tax surcharges: Taxes on Con Edison gross receipts from sales of utility services and other tax surcharges.

Merchant Function Charge: A charge that recovers costs associated with procuring electricity, procuring and storing natural gas, conducting credit and collections activities, and managing uncollectible accounts.

Meter Multiplier: If your meter multiplier is greater than one, your total usage will be the reading difference times the meter multiplier.

New Read: Monthly meter readings are no longer used for billing purposes. Instead, we use the data provided by your smart meter(s), which improve accuracy by recording your energy use in 15-minute intervals. Your New Read is provided for illustrative purposes only.

Prior Read: Your prior meter reading was calculated when your last bill was issued.

Reading Difference: The reading difference is the result of subtracting your prior meter reading from your new meter reading. Please note: the New Read and Prior Read values shown on your bill have been rounded and/or truncated. Calculating the Read Diff yourself may result in a different value than the one shown here.

Reading Type: You will see the word "Estimated" here if your smart meter was unable to communicate your energy use during the billing period. Otherwise, your reading type will be "Actual".

Sales tax: Tax collected on behalf of New York State and/or your locality.

System Benefits Charge: A charge that recovers costs associated with energy-efficiency and renewable-energy programs implemented by the Company and the New York State Energy Research and Development Authority (NYSERDA).

Temperature * Source: Central Park Weather station.

Total Usage (kWh): Your total usage is the sum of the 15-minute interval data recorded by your smart meter(s) during the billing period. This is used to calculate the energy-delivery and energy-supply charges on your bill.
