Claude,
Can we settle on a 20% discount for the 2 lots not shipped and the 3 we have in plant already.
And then work on a solution?

It is very strange but the lines are very pronounced in our plant.
The same people have been handling this fabric for 20+ years and they notice the lines.
Our customer has an inspector on location and they notice the quality change too.

I mentioned earlier when I was there I saw them too.
But back in my office it was more difficult since our lighting is very different.

Please let me know.

Regards
Debi

Hi Claude,

Samples are on the way.

Can you please advise how quickly replacements can be ready?
 And when your inspection team will stop allowing this quality of fabric to be shipped?

Regards
 Debi
