The security features listed below, as well as those not listed, exceed industry guidelines.

Security Features:

Heat Sensitive Ink

- Hold padlock icon images on front of check between thumb and index finger or breathe on it. The images will fade and reappear.

True Watermark

- Hold check to a light source to view. Cannot be photocopied.

Invisible Fillets

- Examine in direct vertical light. Fillets are located between the front and back of the check.

Blended Background Design

- Examine in direct vertical light. Fillets are located between the front and back of the check.

Chemically Sensitive Paper

- The paper is sensitive to heat and moisture. It will turn yellow when exposed to heat or moisture.

Microprinting

- Microprinting is a series of small letters or numbers that are difficult to see when viewed.

High Resolution Watermark

- The watermark is a series of small letters or numbers that are difficult to see when viewed.

Toner Adhesion Properties

- Chemicals in the toner prevent it from being rubbed off. Damage to the check will be visible.

Chemical Wash Detection Area

- Any stains or discoloration in this area may indicate alteration attempts.

Original Document Back Pattern

- Discourages cut-and-paste alterations.

Padlock design is a certification mark of the Check Payment Systems Association.
