Hi Kathy-

Wei retired so I'm filling in until we get up to speed.

Please send me a packing list for the bad goods.

Do you have some correspondence or conversation from Wei pre-approving a credit after processing the goods?

Its not standard in the industry per the legend on our invoice.

Regards,  
Claude

HI Wei,

We just received and inspected the red tricot that came in from this PO 549018, there is a total of 786 yards that is no good , the goods are creased and we can't use them.. we would like to return these goods for a credit.. we rewound the goods onto smaller rolls and cut out the bad parts that we couldn't use.

Please advise if you'd like us to add this yardage to the white being returned tomorrow. Do we need a RMA?

Thank you!

Kathy Muise
