Ensure our Order number and Item number are quoted on all correspondence and at least an External Provider (supplier) delivery note is provided with each delivery. Where applicable, the above material or product is to be supplied in accordance with the registered scope of the Quality Management System approval. Compliance with AS9100D (Revision 2016) requires compliance to the additional requirements contained within clause 8.4.3 "Information for External Providers".

Some of our customers still require us to advise you that they or the regulatory authorities may require access to your premises to satisfy themselves about the quality you are operating. In these circumstances you will be contacted, and are required to make appropriate arrangements.

Additional requirements added in 8.4.3 AS9100D (Revision 2016) include: The approval of: design and development control; special requirements (including critical or key characteristics where appropriate); test, inspection and verification; and the use of statistical techniques for product acceptance.

The need to: implement a quality management system; use of customer approved external providers; notifying the organisation of nonconforming processes, products and services and resultant disposition; preventing the use of counterfeit materials/parts (8.1.4); notifying the organisation of changes to processes, products and services and
