Hi Tressa-

Sorry about that.....

Please cancel 20243.

Regards,  
Claude

Hi Claude,

In regard to the pieces showing on your PO 20243, we do not show these pieces in inventory.

Thank you,  
Tressa

Hi Claude,

Thank you for the PO's.

I have passed your napping concerns on to the Plant Manager.

Regards,

Dale

Hi Dale-

Attached please find the dye orders covering the remaining V10121 greige at Gehring.

Please be careful about the nap. With personnel changes at Gehring, we've experienced a variation in the napping. I hope you have this under control by now.

I believe this clears out all remaining greige at Gehring for a/c Veratex. Please confirm.

Please acknowledge receipt.

Regards,  
Claude

Hi-

Yes. I responded yesterday.

We will send a dye order next week.

Thanks, Dale. Have a good weekend.

Claude

Claude,

Will Wei be sending in a PO for the processing of the V10121  
greige goods?

Dale

Subject: Re: Inventories-Veratex

I would put the V10121C into white as had. If any rolls are very  
dirty, I would put them in black.

When complete, ship it out with:

P103 greige if you can find.  
P379 nude rolls  
P317 white roll  
V11520 rolls

Trash the balance.

Hi Claude,

Yes, the brushed goods are the bulk of the greige that remains,  
in fact, the Simplex rolls are old, so I'm not sure the guys  
would even be able to put their hands on them, in fact I think  
the P103 are goods that were transferred up when we first started  
processing goods for you-see attached greige goods. Yes, we could  
process them as long as they would move quickly once done, as we  
are somewhat tight for space.

I would have to check with Skip on the pricing....would you be  
doing them the same as how we did them previously?

According to Renee the only Finished Goods that she shows are

some seconds that have accumulated since we started processing goods for you, so they may be a bit dusty from hanging around. According to her records we have the following seconds.  
P317 in Mexican Nude-35 yards  
P379 in Nude-982 yards  
P317 in White-80 yards  
V11520 in White-421 yards spilt between two rolls.

Let me know what you wish to do.

Regards,

Dale

Ok Great.

I think there are some greige goods for brushing there.

Would you be able to process those? We are having trouble moving greige goods.

Regards,  
Claude

Hi Claude,

Yes, just struggling with getting and keeping workers! Hope that you are doing well!

Ironically, I just printed the greige goods inventory earlier this week to see about getting it in motion, one way or another. We shipped out all of the yarn and I'm waiting to hear back on whether there are any finished goods remaining. Once I have the info on the greige and FG, I'll send it so you can advise how you would like to proceed.

You'll hear from me soon.

Regards,

Dale

Subject: Inventories

Hi Dale-

Hope you are well..

Please send us a book inventory of all finished, greige and beam yarn at your location.

We would like to move towards using and/or moving it out.

Regards,  
Claude
